Last evening the following telegram was received from ex-senator Mac-Corkle, Liberty Bond state chairman:

To the people of Marion county: I appreciate the splendid patriotism and the efficient management displayed by your people in the Liberty loan campaign. The great crisis of the day demand more sac-fices on the part of some our counties by reasons of the influenza which was seriously impaired the ability of the many of our counties to raise money. The state has been greatly hurt in its efforts to subscribe its allotment of the loan. It will not do for this state to fall to subscribe its quota. We can never explain it to the world how we have failed to do our part in this great crisis in the world affairs. Therefore, I am calling on your splendid county to over-subscribe this allotment to the extent of at least three hundred and fifty thousand dollars. Only by this sacrifice can we raise the allotment apportion to West Virginia. This is to take the place of our counties which have failed by reason of the disease which has broken down the efforts to carry their parts. Will you place this in your most conspicious place in your journal. This is of vital impertance. Other counties have been asked to make similar sacrifices. W. A. MacCORKLE.
